R30

LIFE ON WATER

71% of the Earth's surface is water and increasing due to climate change. As the population grows, the demand for Earth's greater utilization is inevitable. Our mission is to enable the world's transition from land to water with sustainable solutions. By exploring new ways to live, work, and play on the water, we can adapt to the changing environment and build a more sustainable future for ourselves and generations to come.

REVOLUTION

R30

At Blue Innovations Group (BIG), we are driven by a love for humanity and a desire to revolutionize the boating industry. We are challenging the industry standard that has remained unchanged for years. R30, our flagship, lays the blueprint for a new era of sustainable marine technology.

Experience the freedom of the open water with a quiet and emission-free ride. You can explore new depths, cast a line for fishing, or enjoy a romantic sunset dinner. The R30 embodies what boating should be.

R30 FEATURES

R30 CABIN

The R30 cabin provides versatility for everyone as an office for conference calls, an entertainment room for movies and karaoke, and a climate controlled overnight space comfortable for a small family.

- Bathroom with sink and bidet
- Ample storage
- Interactive display
- Safe box

R30 HELM

The R30 helm is equipped with our intuitive infotainment system, with yoke steering for robust handling.

The R30 system combines your instrument cluster, chart plotter, and media system all into one integrated experience with over the air updates.

R30 OCEAN TERRACE

R30 Ocean terrace is designed to optimize deck space, accommodating a larger party of people on board. Its submerged step facilitates effortless water access.

The Kitchenette is equipped with a fridge, sink, and cooktop.
